

QUALIFIED DEFAULT INVESTMENT ALTERNATIVE (QDIA) NOTICE FOR LANZ CABINETS RETIREMENT PLAN

This notice provides important information relating to your participation in Lanz Cabinets Retirement Plan (“the Plan”).

The notice covers the following points:

- How your Plan account will be invested;
- How you can manage your Plan account; and
- Who to contact about your Plan account.

Note: If you are not currently enrolled, are not eligible to contribute and/or do not have an account balance in your Plan, parts of the information on the following pages may not pertain to you. Also, if you would like more information about your Plan than what is outlined below, review the Summary Plan Description (SPD) that has been provided to you.

HOW WILL MY PLAN ACCOUNT BE INVESTED?

The Plan lets you invest your account in a number of different investment options. As a Plan participant, you have the right to decide how to invest your account. **If you made an investment election with respect to your Plan account, the following information may not apply to you.**

Unless you choose or have chosen a different investment option, your Plan account may be invested in a default investment. Additionally, all of your future contributions to your account that you have not directed to a specific investment option in the Plan may be invested in this default investment. This default investment is known as the Qualified Default Investment Alternative (QDIA).

The Plan’s QDIA is the John Hancock Multimanager Lifetime Portfolios. Its objective is to seek high total return through its target retirement date, with a greater focus on income beyond the target date.

HOW DOES A TARGET DATE FUND WORK?

Generally, a Target Date Fund* is an investment option that automatically resets its asset allocations and associated risk levels over time with the objective of becoming more conservative (i.e. decreasing risk of losses) as it approaches the target date. The target date is the year in which investors in the investment option plan to retire and no longer make contributions. The asset mix is comprised of a combination of investment products, like stocks or bonds.

*A Target Date Portfolio (“Fund”) is a target date “fund of funds” which invests in a number of underlying funds. The Fund’s ability to achieve its investment objective will depend largely on the ability of the sub-adviser to select the appropriate mix of underlying funds and on the underlying funds’ ability to meet their investment objectives.

WHAT TARGET DATE FUND WAS SELECTED FOR ME?

The name of each Target Date Fund includes the name of the target date, also referred to as retirement date. And your contributions will be invested in the Target Date Fund that corresponds to or is closest to the year in which you attain the age of 67.** **For example**, Joe was born in 1971. Looking at the years available for the suite of Target Date Funds available to him, the Fund with a target date of **2040** is selected. However, if a date of birth is not provided to John Hancock, you will be defaulted into the most conservative investment option in the suite of Target Date Funds. For example, using the same table, the Fund with the year **2010** as its target date would be selected.

BIRTH YEAR	NAME OF FUND BASED ON TARGET DATE
1991 or later	2060 Fund
1986 - 1990	2055 Fund
1981 - 1985	2050 Fund
1976 - 1980	2045 Fund
1971 - 1975	2040 Fund
1966 - 1970	2035 Fund
1961 - 1965	2030 Fund
1956 - 1960	2025 Fund
1951 - 1955	2020 Fund
1946 - 1950	2015 Fund
1945 or earlier	2010 Fund

**The Target Date Fund that corresponds to or is closest to the year in which you attain age 67 is determined based on the Target Date Funds that were available on the date of your first default investment. Your account balance in the Plan and all future contributions will be invested in such Target Date Fund until you provide investment directions for your Plan account, regardless of whether a Target Date Fund later becomes available that is closer to the year in which you attain age 67. Please refer to your quarterly participant statement to confirm the Target Date Fund in which your Plan account is invested.

Note: Even if some or all of your account is invested in the QDIA, you have the continuing right to direct the investments of your account in one or more of the investment options available to you under the Plan. If you decide to direct your investments, your transfer from the QDIA is not subject to any restrictions, transfer fees or redemption fees during the 90 days of after the date of your first

investment in the QDIA; however, other types of investment related fees (such as the investment option's Total Annual Operating Expenses) may still apply. After such time period, your investment in the QDIA will be subject to the same restrictions, fees and expenses as are applicable to other participants who affirmatively elect to invest in the QDIA. For information about the types of fees associated with the investment option, review the "404a-5 Plan & Investment Notice".

IMPORTANT CONSIDERATIONS WHEN MAKING INVESTMENT DECISIONS

When making investment decisions, it is important to carefully consider your personal circumstances, current savings, monthly earnings and retirement lifestyle goals and risk profile. The principal value of your investment in any investment option, as well as your potential rate of return, is not guaranteed at any time. Also, neither asset allocation nor diversification ensures a profit or protects against a loss. Investment options can suffer losses at any time, and there is no guarantee that any investment option will provide adequate income at and through your retirement. Also, past performance is no guarantee of future results.
